

Westernway American Paint & Quarter Horse Stud.

Conditions of Breeding.
2008

1. The Stud offers a “no foal, free return” service. Breeding by AI only.
If the mare does not conceive or produce a live foal the mare owner has the right to a free return stud service. This does not include, collection, insemination or transport costs. At the discretion of the Stud, if the mare is found to be unable to carry a foal a substitute mare may be used.
It is strongly recommended that the mare owner has the mare examined by a veterinary surgeon prior to breeding, to test for infection and suitability for breeding.
After the second unsuccessful attempt at settling the mare, the Stud reserves the right to withhold supply of further semen until the mare has been examined by a veterinary surgeon.
2. All fees must be paid at time of breeding, or before postage of semen. This includes stud fee, transport, insemination, container deposit and collection fee (if applicable.) Postage of semen for 9am next day delivery is charged at £20
The 1st collection is included in the stud fee, each collection thereafter will be charged At £20. A deposit of £15 will be charged for the container, which is returnable to the Stud for a full refund.
A multiple mare discount is available. Please contact the stud for details
- 3 The Stud offers the services of a fully certified Equine AI Technician. Inseminations are charged at £25 plus travel expenses. Specialist equine stud vet on call at all times.
- 4 It is requested the mare owner gives the Stud at least 24 hours notice before semen is required and to inform the stud within 24 days after insemination as to whether the mare has conceived. If the stud is not informed that the mare is, or is not in foal at this time, the stud reserves the right not to offer a free return.
- 5 It is recommended the mare owner have the mare scanned 18 days after insemination to determine as to whether the mare has conceived and if (in the unlikely event) she is carrying twins, one foetus can be eliminated. If the mare owner chooses not to have the mare scanned the stud reserves the right not to offer a free return if the mare loses twin foals.
6. Mares accepted at the stud from April through to September. £3.50 per day.

We are proud to offer excellent quality fresh or chilled semen from the following.
